Project Title

MboaLift — A ride-sharing web application for Douala, Cameroon (theme: *Re-invent Douala's Ride*). Tagline: *Move smarter*.

Nature of the Work

Original computer software including source code (Python/Flask, service modules, SQL schema, HTML templates, CSS, JavaScript including i18n and PWA assets), database design, UI design, documentation, and related materials created for an academic coding challenge.

Copyright Ownership

© **2026** — The authors / development team of **MboaLift**. All rights reserved, except as expressly stated for academic use. The authors assert their moral rights to be identified as the creators of this work.

Scope of Protected Material

- Application source (`app.py`, `main.py`, `services/payment_service.py`, `services/ai_service.py`)
- Database schema and data model
- Templates, styles, client scripts, i18n (EN/FR), PWA manifest and service worker
- Documentation and presentations
- Original logic: fare matrix, ride lifecycle, roles, MoMo integration flow

This does not claim ownership of third-party libraries (Flask, MySQL Connector, Werkzeug, python-dotenv, requests) or external MoMo/AI APIs and trademarks.

Academic / Educational Use

Developed for educational purposes. The authors grant their institution and examiners the right to review, evaluate, and archive the work for grading. Commercial reproduction requires prior written consent.

Restrictions

Without permission, no person may: sell or commercially exploit the code; remove this notice; misrepresent authorship; or use the MboaLift name to suggest unrelated endorsement.

Suggested Notice in Source Files

```
# MboaLift
# Copyright (c) 2026 The MboaLift Team. All rights reserved.
# Academic project — Re-invent Douala's Ride.
```

Disclaimer

PROVIDED FOR EDUCATIONAL USE “AS IS”, WITHOUT WARRANTY. Authors are not liable for damages from use. MoMo sandbox endpoints must not be used for live commercial transactions without production credentials and compliance.

Declaration

We declare this project is our original work (except third-party libraries/APIs identified in the docs), that we have not copied substantial portions from other submissions, and that we understand our institution’s academic integrity rules.

Date of declaration: **13 August 2026**
